

Report Period: Aug 17-30

### **Summary of Progress in this Period**

During this period, we went about coordinating all of the schedules between the group members so that we can begin creating working schedules for our group project. We also met our faculty advisors/client Dr. Mohammad Tayeb Al Qaseer. During the meeting he gave us guidance on what we should research for our project. He also explained in more detail the various aspects of our project and what would be required from each group member to complete the project.

---

### **Pending Issues**

There are no issues at this time. We are working on figuring out where each member wants to work on the project. This project will also require that we don't fall behind due to the demanding nature of this project.

---

### **Plans for Upcoming Reporting Period**

The group plans on meeting with our client to discuss the specific assignments each member will be taking. Our client also wants us to continue researching various topics within our project for more in-depth knowledge.
